(1) Organic growth expresses the growth of our existing businesses excluding impacts from acquisitions, the 30-year Reuters News agreement with Refinitiv signed in 2018, dispositions and IFRS 15. We adopted IFRS 15, Revenue from Contracts with Customers, in 2018 without restatement of prior periods. We remove the distortive impact of this adoption methodology in our organic growth calculation. There were no dispositions in 2018 or 2017.

**Thomson Reuters Corporation****Reconciliation of Net Debt to Adjusted EBITDA and Debt Outstanding <sup>(1)</sup> (Slide 30)***(millions of U.S. Dollars)**(unaudited)*

(1) Net debt is total indebtedness including the associated fair value of hedging instruments on our debt, but excluding unamortized transaction costs and premiums or discounts associated with debt, less cash and cash equivalents. Net debt provides a measure of indebtedness in excess of the current cash available to pay down debt. Given that we hedge some of our debt to reduce risk, we include hedging instruments as we believe it provides a better measure of the total obligation associated with our outstanding debt. However, because we intend to hold our debt and related hedges to maturity, we do not consider certain components of the associated fair value of hedges in our measurements. We reduce gross indebtedness by cash and cash equivalents on the basis that they could be used to pay down debt. Debt outstanding is net debt less cash and cash equivalents.
