SPECIAL NOTE

Safe Harbor / Forward-Looking Statements

• The following discussion contains forward-looking statements, including those about Thomson Reuters outlook and prospects. Forward-looking statements are those which are not historical facts. These and other statements that relate to future results and events are based on Thomson Reuters current expectations.

• Our actual results in future periods may differ materially from those currently expected because of a number of risks and uncertainties. The risks and uncertainties that we believe are material are outlined in our disclosure filings and materials, which you can find on www.thomsonreuters.com. Please consult these documents for a more complete understanding of these risks and uncertainties. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law. Our outlook is provided for the purpose of providing information about current expectations for 2010. This information may not be appropriate for other purposes.

Non-IFRS Financial Measures

• This presentation contains disclosures of certain non-IFRS financial measures. Please see the “Investor Relations” section of our website for a reconciliation of each of these measures to the most directly comparable IFRS financial measure. You can also find some IFRS reconciliations in the tables attached to our earnings releases dated February 24, 2010 and May 4, 2010, which are also available on www.thomsonreuters.com.

Market Growth

2003 2004 2005 2006 2007 2008 2009
FAVORABLE REVENUE MIX

A five year focus on high-growth market segments and recurring revenue streams has resulted in a favorable mix of revenues

By Product:
- **2004**
  - Print/CD: 29%
  - Online Information: 17%
  - Software and Services: 54%
- **2009**
  - Print/CD: 12%
  - Online Information: 19%
  - Software and Services: 69%

Higher growth businesses comprise an increasingly larger proportion of revenues.

By Customer:
- **2004**
  - Professional: 60%
  - Corporate: 30%
  - Other: 10%
- **2009**
  - Professional: 44%
  - Corporate: 51%
  - Other: 5%

A balanced portfolio of customers helps smooth performance through economic cycles.

</table>

**Key Thomson Reuters Tax & Accounting Advantages**
- Broadest product range and customer breadth of any competitor
- Unmatched value proposition for MNCs and the Big 4 accounting firms
- Strong track record of successfully integrating strategic acquisitions

---

2. Based upon internal Thomson Reuters estimates
TAX & ACCOUNTING TODAY

I. Leading provider of information, software, and services to accounting firms and corporate tax departments worldwide

II. Effectively growing the business in a challenging environment

III. Well-positioned to exploit favorable trends in the global market for automated tax and accounting solutions

IV. Executing on strategic priorities
OPPORTUNITY
A LARGE AND GROWING MARKET

The global market for tax and accounting information, software, and services is $9.2 billion, and Thomson Reuters is an established leader within the market.

Global Tax and Accounting Market

- **$4.7B**
  - Americas
  - EMEA
  - Asia Pacific

- **$4.5B**
  - Americas
  - EMEA
  - Asia Pacific

**Total:** $9.2B

**Market Highlights**

- Global tax and accounting market growing at 4.5%:
  - 6% in Workflow and Service Solutions
  - 3% in Business Compliance and Knowledge Solutions
- TR Tax & Accounting outpaced the market with 9% growth in 2009
- Thomson Reuters has an 11% share of the global market
The proliferation and heightened enforcement of government regulations creates challenges for corporations on a global scale

- The continuous introduction of new regulations are increasing compliance costs for companies in Asia Pacific, North American and Europe
- Tax departments are affected by the global spread of SOX-like regulations and increased reporting transparency
- Rapidly expanding budget deficits are driving enforcement initiatives and enhanced scrutiny by tax authorities
- Companies are adopting a systemic approach to compliance and risk management, using technology to support the process

OPPORTUNITY
FAVORABLE MARKET DEMOGRAPHICS

Practitioner growth driven by Asia Pacific growth, globalization, and increasing regulatory complexity

Number of Practitioners, 2009

- Growth of practitioners in EMEA continues alongside demand for cross-border content, software and services
- CPA population is experiencing strong growth across emerging markets in the Americas and Asia Pacific
- Accounting student enrollments are increasing throughout Asia Pacific, particularly in Australia and India

Global shortage of experienced talent driving need for knowledge solutions, software, and services

Percentage of Managers Having Difficulty Finding Skilled Accounting and Finance Job Candidates, 2008-09

- Need for knowledge solutions, software, and outsourced services to substitute for experienced practitioners
- The majority of countries surveyed are experiencing difficulty finding job candidates in accounting/finance

Source: Robert Half International
The adoption of IFRS is leading to consistent and comparable accounting standards worldwide.

Global IFRS Adoption and Planned Adoption

- Within the next five years, >90% of the world’s GDP will be generated in IFRS-compliant nations
- >100 countries (including countries of the EU) have adopted IFRS
- ~50 more countries will adopt in next five years (including China and India)
- Consistent and comparable accounting standards worldwide will facilitate development of global standards in other areas, such as tax provisions (IAS12 global tax standard)

Source: PwC IFRS adoption by country, 2009
OPPORTUNITY
THE NEW WORLD OF TAX FOR MNCs

Market trends and globalization are forcing MNCs to take a broader view of tax compliance, planning and risk management

<table>
<thead>
<tr>
<th>Global Statutory Compliance</th>
<th>Tax Management in a Global Economy</th>
<th>Local Compliance and Risk Management</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Aggregation of global tax liabilities for financial reporting</td>
<td>• Effective tax planning to manage the corporation’s global tax obligations on a consolidated basis</td>
<td>• Timely compliance in all local jurisdictions</td>
</tr>
<tr>
<td>• Global statutory compliance across all legal entities and jurisdictions</td>
<td>• Management of tax treaties and legal entity structure/strategies</td>
<td>• Tax return filings and payments, in all forms of taxation</td>
</tr>
<tr>
<td>• Managing the global tax calendar</td>
<td>• Transfer pricing compliance across multiple legal entities and cross-border</td>
<td>• Tax audit avoidance and audit defense</td>
</tr>
</tbody>
</table>
Global tax planning involves the management of tax obligations, M&A tax implementation, and routing of international cash transfers.

- Establish legal entities
- Plan for effective corporate income tax rate
- Determine country based revenue migration path(s)
- Repatriate currency and profit from other countries
- Strategies for acquired businesses
- Monitor international tax treaty changes and take advantage of the treaty structures

Planning is a combination of tax rate management and risk management with implications for, and from, other tax activities.
Taxing authorities require MNCs to plan for and document market-equivalent prices for cross-border intra-company transfers of goods and services.

- Stay current on the tax implications of moving goods and services across borders within the organization
- Establish and test internal pricing agreements to comply with country rules and international tax treaties
- Comply with constantly changing rules and treaties
- Retain supporting documentation to successfully defend tax audits

Transfer pricing issues have significant tax planning and compliance implications.
Publicly traded MNCs must report on current and deferred tax liabilities on a consolidated basis from around the world, directly impacting EPS.

- Transparent and proper financial reporting of tax liabilities and risks
- Systematically gather tax data from operations around the globe
- Reporting the financial statements in both GAAP and IFRS
- Keep up with annual changes in country based compliance rules and regulations

As accounting standards become globalized under IFRS, IAS12 is increasingly the worldwide provision standard.
The preparation and filing of tax returns is done on a country-by-country (jurisdictional) and legal entity basis, guided by local statutory rules.

- Periodic filing of estimated and final tax returns by country and by legal entity
- Compliance with local requirements for submission of tax returns and payments
- Much of the data for provisions estimation and planning is used in compliance
- Indirect tax is less episodic and continuous

Compliance and provisions are becoming closely tied as provision reporting has shifted from estimations to more detailed calculations.
## CAPITALIZING ON KEY TRENDS

### Key Trends
- Increase in regulatory scrutiny and complexity
- Globalization and converging accounting standards, including the adoption of IFRS
- Global shortages of experienced accounting and finance staff

### Tax & Accounting Opportunities
- Deliver integrated content, software and workflow solutions that specifically target the full range of compliance activities
- Develop technology solutions which meet the *global* tax, accounting, and compliance needs of our MNC and Big 4 customers, married with local tax compliance technologies provided by local domain experts
- Use technology to fulfill the demand for workflow solutions which drive practitioner productivity, and reduce staffing needs, across firms and corporations
I. Leading provider of information, software and services to accounting firms and corporate tax departments worldwide

II. Effectively growing the business in a challenging environment

III. Well-positioned to exploit favorable trends in the global market for automated tax and accounting solutions

IV. Executing on strategic priorities
VISION AND GROWTH STRATEGIES

Tax & Accounting Vision
Be the leading provider of integrated workflow, compliance, and knowledge solutions to the global tax and accounting market of professional firms and corporations

Core Strategies

Extend Leadership Position in US
Extend Tax & Accounting’s leadership position by continuing to integrate products into increasingly comprehensive solutions

Accelerate Global Expansion
Expand global technology suite and enter attractive, high-growth global markets
EXTEND US LEADERSHIP POSITION
ONESOURCE PRODUCT INTEGRATION

The ONESOURCE Strategy

- Provide a single integrated tax department solution using our proprietary workflow tools

Integration Benefits

- Customer benefits:
  - Improved productivity and accuracy
  - Easy access to data, metrics, and workflow status
  - Increased visibility across the entire tax department

- Tax & Accounting benefits:
  - Long-term sustainable differentiation for Tax & Accounting
  - Drive multi-unit sales to existing and new corporate customers
EXTEND US LEADERSHIP POSITION
THE ONESOURCE PLATFORM

ONESOURCE

• Over 37,000 users
• Streamlines access to key metrics without having to open/understand individual applications
• Enhances overall management and control of the entire workflow process
• Over 20 products form an integrated ONESOURCE solution, and we are acquiring and building more
• The foundation of our global technology for our Big 4 partners
EXTEND US LEADERSHIP POSITION
ONESOURCE IS NOW A GLOBAL BRAND

ONESOURCE™
DRIVE YOUR SUCCESS WITH PROVEN POWER

INCREASE PRODUCTIVITY FROM A SINGLE, TRUSTED SOURCE

How do you maintain excellence in your tax department with a keen eye on the bottom line? The ONESOURCE™ portfolio of software and services from the experts who know corporate tax.

We keep your company moving with a variety of options for workflow, software, services, consulting, data management, and research.

Improve accuracy with innovative, customizable solutions that keep your department efficient in every area, including:

Income Tax • Provision • Transfer Pricing • Sales & Use Tax
Property Tax • 1099 Information Reporting • Trust Tax

For optimum efficiency, you can access all solutions from the ONESOURCE single sign-on platform. It’s a level of connectivity you won’t find anywhere else.

For more information, contact us:
800.865.5257 / onessource.thomsonreuters.com

Speed. Dependability. Teamwork. Powered by ONESOURCE.

**Checkpoint Learning** is an integrated learning solution that combines Tax & Accounting’s existing CPE assets into a single platform.

**Comprehensive CPE Platform**

- Checkpoint Learning platform is differentiator for Tax & Accounting in a highly fragmented market.
- The new platform will transform CPE into a subscription-based recurring business model.
- Customizes curriculum, automates compliance with state CPE rules and reporting of credits, provides online storage of course material.
- Integration between Checkpoint and CPE courses enhances customer value.
- The technology is the basis for our global Certification platform.
ACCELERATE GLOBAL EXPANSION
THE GLOBAL TAX WORKSTATION

The global tax workstation combines local compliance engines with global tax and workflow applications to provide integrated platform solutions for customers.

Complete Global Solution

• By leveraging existing products and solutions, Tax & Accounting has the key components of global tax workstation today
• Acquired several local tax solutions, including Digita (UK), Abacus (UK), and PowerTax (ANZ) which are being integrated into the global platform
• Continue to buy and/or build additional solutions to further develop global presence – build projects and partnering now underway in multiple countries
• Official launch scheduled Q4 2010
ACCELERATE GLOBAL EXPANSION COUNTRY ENTRY VIA ACQUISITION

Acquisition of professional or corporate compliance software businesses in strategic countries will be critical to the long-term success of our growth strategy.

Step 1: Acquire Local Tax Compliance Assets and Customers

Step 2: Export Existing Tax & Accounting Products and Technology

Step 3: Integrate and Sell Global Products to Local Tax Compliance Corporate Customers

Step 4: Integrate Local Compliance Solution with Other Global Solutions

Global Tax Solution

- Tax Planning
- Transfer Pricing
- Provision
- Indirect Tax
- Compliance
ACCELERATE GLOBAL EXPANSION
GLOBAL INDIRECT TAX EXAMPLE

Global Expansion

- Thomson Reuters was a leader in US sales and use tax reporting, but aspired to provide a global end-to-end solution for corporate customers
- Acquisition of Abacus in the UK in 2009 provided VAT reporting capabilities for over 20 countries in the EU
- Completion of Sabrix transaction in year-end 2009 added global tax content and determination capabilities
- These acquisitions will be integrated and will then form a critical component of the global tax solution
ACCELERATE GLOBAL EXPANSION
