TORONTO, October 3, 2018 – Thomson Reuters (TSX/NYSE: TRI) today announced the preliminary results of its substantial issuer bid/tender offer (SIB) to purchase from shareholders for cancellation up to US$9 billion of its outstanding common shares. The SIB expired at 11:59 p.m. (Toronto time) on October 2, 2018. Based on preliminary results, approximately US$6.5 billion of shares were tendered under the SIB (including shares tendered by notice of guaranteed delivery).

In accordance with the terms and conditions of the SIB and based on a preliminary count by Computershare Trust Company of Canada, as depositary for the SIB, Thomson Reuters expects to take up and purchase for cancellation approximately 138.7 million shares at a purchase price of US$47.00 per share. The shares expected to be purchased under the SIB represent approximately 19.8% of the shares issued and outstanding on a non-diluted basis at the time that the SIB was announced. After giving effect to the SIB, approximately 562 million shares are expected to be issued and outstanding.

The number of shares to be purchased under the SIB and the purchase price are preliminary, subject to verification by the depositary and assume that all shares tendered through notice of guaranteed delivery will be delivered within the two trading day settlement period. Thomson Reuters will announce the final results following completion of take-up of the shares.

The company’s principal shareholder, The Woodbridge Company Limited and its affiliates (Woodbridge) made a proportionate tender, which maintains its proportionate equity ownership in Thomson Reuters of approximately 64% following completion of the SIB.

As the number of shares tendered under the SIB was less than the US$9 billion target, Thomson Reuters plans to provide additional information regarding completing returns to shareholders in connection with announcing final results of the SIB on October 8, 2018.
