## Thomson Reuters Announces Annual Renewal of Normal Course Issuer Bid

**TORONTO, August 14, 2019** – Thomson Reuters Corporation (TSX / NYSE: TRI) today announced that it has received approval from the Toronto Stock Exchange (TSX) for the annual renewal of its normal course issuer bid (NCIB).

Under the renewed NCIB, up to 25 million common shares (representing approximately 5% of the company's total outstanding shares) may be repurchased between August 19, 2019 and August 18, 2020.

For its NCIB that began on May 30, 2018 and expired on May 29, 2019, Thomson Reuters previously received approval from the TSX to repurchase up to 32,230,450 common shares (which reflects the company's share consolidation in November 2018). Of this amount, Thomson Reuters repurchased approximately 24.9 million common shares for a total cost of approximately US\$1.22 billion, representing an average price of US\$49.24 per share. Thomson Reuters repurchased the common shares through the facilities of the TSX, the New York Stock Exchange (NYSE) and other alternative trading systems through its broker.

Under the renewed NCIB, shares may be repurchased in open market transactions on the TSX, the NYSE and/or other exchanges and alternative trading systems, if eligible, or by such other means as may be permitted by the TSX and/or NYSE or under applicable law, including private agreement purchases if Thomson Reuters receives an issuer bid exemption order in the future from applicable securities regulatory authorities in Canada for such purchases. The price that Thomson Reuters will pay for common shares in open market transactions will be the market price at the time of purchase or such other price as may be permitted by the TSX. Any private agreement purchases made under an exemption order may be at a discount to the prevailing market price. In accordance with TSX rules, any daily repurchases (other than pursuant to a block purchase exception) on the TSX under the renewed NCIB are limited to a maximum of 126,517 shares, which represents 25% of the average daily trading volume on the TSX of 506,069 for the six months ended July 31, 2019 (net of repurchases made by the company during that time period). On July 31, 2019, there were 501,157,261 Thomson Reuters common shares outstanding. Any shares that are repurchased will be cancelled.

From time to time, when Thomson Reuters does not possess material nonpublic information about itself or its securities, it may enter into a pre-defined plan with its broker to allow for the repurchase of shares at times when Thomson Reuters ordinarily would not be active in the market due to its own internal trading blackout periods, insider trading rules or otherwise. Any such plans entered into with Thomson Reuters broker will be adopted in accordance with applicable Canadian securities laws and the requirements of Rule 10b5-1 under the U.S. Securities Exchange Act of 1934, as amended.

Decisions regarding any future repurchases will depend on certain factors, such as market conditions, share price and other opportunities to invest capital for growth. Thomson Reuters may elect to suspend or discontinue share repurchases at any time, in accordance with applicable laws.
