REUTERS SUBSIDIARY INSTINET FILES FOR IPO

London – Reuters, the global information, news and technology group, announced today that Instinet, its wholly owned electronic brokerage subsidiary, has filed a Registration Statement with the US Securities and Exchange Commission for a proposed initial public offering (IPO). Instinet intends to apply for quotation of its common stock on the Nasdaq National Market. It is expected that the IPO will be completed by the middle of 2001. This will be a primary offering of common stock all of which will be issued by Instinet. Following the IPO, Reuters will continue to own a substantial majority of Instinet's common stock.

Instinet is the world's largest electronic agency securities broker, trading in 40 securities markets, with membership of 20 exchanges throughout North America, Europe, and Asia. It is headquartered in New York and has eight other global offices. Founded in 1969, Instinet was acquired by Reuters in 1987 and has grown substantially under Reuters ownership in both US and international securities markets.

Reuters announced in February last year that an IPO was a strategic option under consideration for Instinet. In October the Group confirmed that it would proceed with plans for an IPO.

**Peter Job**, Reuters Chief Executive, said: "A public listing is a natural evolution for Instinet. Reuters believes that backing an independent Instinet whilst remaining a substantial shareholder is the best way forward for Reuters shareholders."
